CAREER DISCOVERY SERIES

Work Readiness
Grades 9-12

Industry professionals share tips and insights to inspire students' as they plan future careers.

JA Central Ontario inspires young people to prepare for their future by exploring different careers and meeting industry professionals. This series of interactive online events empowers students to discover their future careers.

How does the Career Discovery Series work?

High school students from Central Ontario are invited to join live, virtual events that bring together industry speakers who will share their career journeys to inspire students. They will share insights on future opportunities and answer student questions. These sessions are hosted on Zoom Webinar. Teachers can register their entire class or students can join independently.

Students will:

- Learn about different career opportunities in various industries
- Hear tips and insights from industry professionals
- Ask questions about their future career paths to the industry speakers
- Be inspired to explore and discover the many career paths available to them
