The teacher will organize the materials and remain in the classroom

JA will provide additional activities/resources to continue the learning

Teachers can run the program with their class and facilitate all the activities virtually or in the classroom

Teachers are able to run the program at their own pace

JA will provide access to the program resources

**Start here - Register your class**

\*Subject to availability

## Students will:

- ▲ Identify the next steps needed in their personal career preparation and planning
- ▲ Identify current personal strengths and skills, and identify skills needed for future employment
- ▲ Learn how to develop a personal brand
- ▲ Learn about different career opportunities, and listen to insights from industry professionals
- ▲ Develop job hunting skills such as interviewing skills

“

I enjoyed this program and took away key information that I can implement in my daily life/professional pathway – thank you!

-Grade 11 student
